1. Review of Performance (continued)

Quarterly

Revenues for the quarter improved by 13.5% compared to the corresponding third quarter of 2021, increasing from RM 1.61 billion to RM 1.83 billion, while increasing by 4.6% against those of the preceding second quarter of 2022 which were RM 1.75 billion. The improved revenue in comparison to the corresponding third quarter was mainly due to the timing of the commencement of a major hospital tender in Logistics segment, ongoing growth of existing clients in both Marketing and Distribution and Logistics segments and recovery of customer demand from the COVID-19 pandemic for all segments. The increase in revenue compared to the preceding second quarter of 2022 was due to timing of the commencement of a major hospital tender in Logistics segment, offset by lower sales recorded in Marketing and Distribution and Others segments from higher festive sales in the second quarter.

Operating expenses for the quarter increase by 13.4% from RM 1.59 billion to RM 1.80 billion as compared to the corresponding third quarter of 2021, while increasing by 5.9% against those of the preceding second quarter of 2022 which were at RM 1.70 billion. The changes in operating expenses as compared to the corresponding third quarter were largely in line with the movement in revenue. The operating expenses increased more than the revenue growth as compared to the preceding second quarter of 2022 were largely due to change in margin mix for Logistics Segment and supply delay in third quarter of 2022 for Others Segment.

Profit before tax for the quarter improved by 37.5% compared to the same quarter of 2021, while decreased by 44.4% as compared to the preceding second quarter of 2022. The improved profit before tax performance compared to the corresponding quarter was due to increased revenues, improved margin mix in Logistic segment and gains from foreign exchange derivatives. The reduction in profit before tax as compared to the preceding second quarter was due to a change in sales mix.

Period-to-date

Revenues grew by 4.8% from RM 5.15 billion to RM 5.39 billion as compared to 2021, reflecting the ongoing growth of existing clients and new clients secured as well as recovery from the effects of COVID-19 pandemic in all segments.

Profit before tax improved by 23.5% compared to 2021 due to the above-mentioned results and gains from foreign exchange derivatives.
