

effective spreading on the skin, strengthen hair care, increase hair moisture content and luster

**Almond butter** — Extract Mediterranean Almond which has good skin spreading

**Horsetail butter** — Mineral rich horsetail contains the building blocks needed for collagen and elastin synthesis, and the silicon present will link any collagen produced, thus greatly enhancing the rebuilding of connective tissues in the epidermis

**Sal butter** — Due to its uniform triglyceride composition, it exhibits high oxidative and emulsion stability, and good skin softening ability

**Lemon grass butter** — it surrounds the user with a wonderful aroma that calms and relaxes

**Coffee butter** — With fresh roasted coffee aroma, smooth and elegant skin feel, widely accepted by youth and mature consumer

**Mowrah butter** — Emollient soft butter, prevent drying of the skin and may hinder the development of wrinkles, reduce degeneration of skin cells and restores skin flexibility

**Pistachio butter** — Excellent skin penetrating and spreading

**Camelina oil** — “Gold of pleasure”, unique vegetable oil with a high omega-3 content suitable for a variety of skin care and nutraceutical applications

**Borage oil** — One of the richest sources of essential fatty acids, richest sources of gamma-linolenic acid, helpful to treat damaged skin

**Neem oil** — Non-toxic to mammals and may be a very effective organic antiseptic, anti-fungal, antibacterial, antiviral, dermatological and dental agent, natural oil

**Aloe oil** — Exhibits good emolliency and substantivity to skin and hair, and is an excellent moisturizing agent

**Sesame oil** — Natural SPF value can reach 4, excellent sun care and penetration and spreading oil, has good anti-oxidant effect

**Tea tree oil** — Excellent antiseptic qualities and exhibits a pleasant, menthol-like odor that is clean and refreshing

**Evening primrose oil** — Nicknamed as the “King Cure-All” and also as a “Medical plant”, typically contains a minimum 9% GLA, which contributes to good cellular health

**Eucalyptus globulus oil** — Contain a chemical “eucalyptol” that has decongestant and antiseptic action. Excellent choice for soaps, toners and cleansers, as well as shampoos and body washes

**Wheat germ oil** — Rich in octacosanol— a potent source of energy prized by athletes, also rich in natural VE and beta carotene and phosphatides and phytosterols, nutraceuticals to enhance cellular health. Etc.

**Sympaten-LBZ** — C12-15 Alkyl benzoate, Polar, low-viscous emollient with good spreadability and lubricity, dry lubricating feel on skin, especially chemical sunscreen filters, dispersant and wetting agent for hydrophobic dyestuffs

**Sympaten-ASP/150** — PPG-15 stearyl ether, pleasant skin feeling emollient, electrolyte dispersant, chemically stable and pH resistant, Solubilizer and coupling agent for fragrances and polar oils, Solvent for organic sunscreen filters

**Monoi de Tahiti** — (Tiare fragrance)With instant and long time skin hydration, lubricate skin, firming skin and soft dermis
