

HYGRO- / STAT- / TEMP-MAXX

Reliable and stable measurements in the HVAC environment

HUMIDITY- / TEMPERATURE- MEASUREMENT

QUICK FACTS

HYGRO- / STAT- / TEMP-MAXX

Robust transmitter with large display for HVAC applications

Measurement instruments with extra-large display for the monitoring and control of air humidity and temperature in HVAC plants. The devices dispose of a scalable analogue outputs as well as an integrated alarm switch contact.

ADVANTAGES & BENEFIT

ROBUST, EASY TO READ AND FAST TO CALIBRATE

The instrument design is adapted to HVAC applications and is appropriately robust. Beside the long life time this instruments excel with an extra-large and easy to read display, also from greater distances. Furthermore they can be easily and fast calibrated on-site.

FEATURES

	HygroMaxx	StatMaxx	TempMaxx
FIX INSTALLED	X	X	X
POWER SUPPLY 24V	X	X	X
MAINS SUPPLY (OPTIONAL)	X	X	X
HUMIDITY- & TEMPERATURE-MEASUREMENT	X	X	
ONLY TEMPERATUR MEASUREMENT			X
CAPACITIVE HUMIDITY MEASUREMENT	X	X	
ANALOG OUTPUT SIGNAL	X		X
DIGITAL OUTPUT SIGNAL		X	
INTEGRATED SWITCH RELAY		X	X
LC-DISPLAY	X	X	X

AREA OF APPLICATIONS

HEATING VENTILATION AIR CONDITIONING IN VARIOUS INDUSTRIES

MEASUREMENTS INSIDE REFRIGERATORS, CLIMATIC CHAMBERS

VARIOUS ROOM AN DUCT MEASUREMENTS
