

Streamline your media preparation

Simplify your workflow with Pre-Weigh Dehydrated Culture Media

Growing pressures from higher test volumes and demands for faster time to results call for solutions that maximize efficiency without compromising the quality of your outputs. Streamline your workflow today with our convenient “Rip and Tip” Thermo Scientific™ Pre-Weigh Dehydrated Culture Media (DCM) pouches, available in 1L and 8L sizes that help you maximize productivity while reducing costs.

EFFICIENT

Choose from a range of pre-weighed dehydrated culture media for reduced hands-on time and increased accuracy while maximizing productivity

CONVENIENT

Simplify your workflow with easy to open and use ‘rip and tip’ format in a shelf-ready box

COMPLIANT

Maintain confidence in performance—same high quality media as our standard DCMs in a convenient, validated packaging format

FLEXIBLE

Combine 1L and 8L Pre-Weigh pouches to fit your culture media batch sizes—suitable for use with and without media preparators

Pre-Weigh DCMs: supplied in shelf-ready boxes

Potential efficiency gains

Comparison of media preparation using Pre-Weigh DCMs compared with standard DCMs*

Example A:

When preparing 45L of media each day a time-saving of 134 minutes a week was achieved equating to **a saving of 14.5 days a year****

Example B:

When preparing 15L of media each day a time-saving of 45 minutes a week was achieved equating to **a saving of 5 days a year****

*Based on an in-house study carried out under laboratory conditions

**Calculated on a laboratory operating 52 weeks a year, five days a week, eight hours a day

Pre-Weigh Dehydrated Culture Media Range

Catalog #	Product Description	Pack Size
PW0509-1L	Pre-Weigh Buffered Peptone Water (BPW)	20 x 1L
PW0509-8L	Pre-Weigh Buffered Peptone Water (BPW)	10 x 8L
PW1049-1L	Pre-Weigh Buffered Peptone Water (BPW) (ISO)	20 x 1L
PW1049-8L	Pre-Weigh Buffered Peptone Water (BPW) (ISO)	10 x 8L
PW0485-1L	Pre-Weigh Violet Red Bile Glucose Agar (VRBGA)	20 x 1L
PW0485-8L	Pre-Weigh Violet Red Bile Glucose Agar (VRBGA)	10 x 8L
PW0325-1L	Pre-Weigh Plate Count Agar (PCA)	20 x 1L
PW0325-8L	Pre-Weigh Plate Count Agar (PCA)	10 x 8L
PW0929-1L	Pre-Weigh Mannitol Egg Yolk Polymyxin (MYP) Agar Base	20 x 1L
PW0929-8L	Pre-Weigh Mannitol Egg Yolk Polymyxin (MYP) Agar Base	10 x 8L

*MYP Agar Base requires supplementation with Polymyxin B Supplement (Order code: SR0099E) and Egg Yolk Emulsion (Order code: SR0047C)
