

Bottle Top Dispenser

Bottle Top Dispenser

Bottle Top Dispenser with re-circulation valve

Bottle Top Dispenser with Dual Inlet

Fisherbrand™ offers three lines of bottle top dispensers which caters to every laboratory need from simple dispensing to handling of aggressive and hazardous chemicals and reagents. Fisherbrand dispensers are robust in design with a PTFE piston for smooth movement, easy volume setting, high chemical compatibility and an adjustable delivery nozzle for ease of working in challenging laboratory conditions. These dispensers are fully autoclavable and have easy user re-calibration.

Bottle Top dispenser with re-circulation valve facilitates quick and definite purging (removal of air) without losing any reagent.

Bottle Top Dispenser with Dual Inlet facilitates multiple dispensing modes including rinsing, dilution and bottle re-filling without dismounting the instrument from the reagent bottle.

Whatever your application may be, you can always select a suitable Fisherbrand Bottle Top Dispenser.

Features	Bottle Top Dispenser	Bottle Top Dispenser with re-circulation valve	Bottle Top Dispenser with dual inlet
